WEBINAR ON SUBSTANCE USE PREVENTION

The Ministry of Education and Child Care, in partnership with adolescent clinical psychologist Dr. Hayley Watson from [Open Parachute](https://www.openparachute.ca), will host an additional three (3) free virtual sessions for parents, guardians and caregivers on creating a personalized step-by-step plan for implementing substance use prevention skills in their home. You will learn the specific steps needed to create a home environment where both you and your child and youth are supported. This session will answer the question: **How can I teach my child and youth substance use prevention strategies in the most effective way?**

This presentation is for all parents, caregivers, guardians, and adults who care for children and adolescents of all ages. You will walk away with a clear action plan that you can implement immediately, tailored to your unique circumstances. This plan will assist you in teaching the children in your care the skills they need to thrive and make healthy decisions about substances, keeping the well-being of your whole family at the forefront. Participants must register in advance by clicking one of the links below. Session dates are
