THE STUDENT LEARNING SURVEY (SLS)

The Student Learning Survey (SLS) has been administered every year in B.C. public schools since 2001. Prior to 2016-2017 it was known as the Student Satisfaction Survey. The SLS provides feedback on the implementation of the curriculum changes, learning environment, student wellness and satisfaction, student belonging and engagement, and career preparation.

The SLS is the only source of province-wide information about students' learning experiences through the perspectives of students, parents, guardians/caregivers, and school staff. Schools and districts use the SLS to make informed decisions around long-term planning and goal-setting, and in providing individual students personalized support.

Your valued participation is an important contribution to improving the educational experiences of children.

The parent and guardian/caregiver survey is now available online at www.bced.gov.bc.ca/sat_survey/access.htm and is available in 18 different languages.

The survey will be available until Friday, April 30, and will take approximately 30 minutes to complete.

Your responses are voluntary and anonymous, and your child will not be identified as a result of your participation in the survey. Any personal or identifying information will be deleted before results are stored. Data will be stored and accessible only within Canada.

The results of the parent and guardian/caregiver SLS survey will be available through the Ministry of Education website (<https://www2.gov.bc.ca/gov/content/education-training/k12/support/student-learning-survey>) and on the BCCPAC website (<https://bccpac.bc.ca/>) in summer 2021.

Please contact the web survey provider (AWIS) if you have technical difficulties; call toll free: 1-866-558-5339 or email support@awinfosys.com.

We sincerely appreciate your input and thank-you in advance for your participation.

SURVEY ABOUT THE QUARTER SYSTEM AND ADJUSTMENTS TO SCHOOL SCHEDULING

This year, the structure of our secondary schools was adapted to support learning during the COVID pandemic. This included many changes including: adjusted start times, a quarter system for courses, and altered schedules for students.

As we move forward beyond our current context, we have developed a survey to seek input about your child's experiences. We value your perspectives and will use the survey information to help us plan for future school years.

We hope that you will take about 10 minutes of time to participate in the secondary families' survey. The link to the survey is and it opens on Tuesday, April 6th:

[https://www.surveymonkey.com/r/YHW9KVP\(link is external\)](https://www.surveymonkey.com/r/YHW9KVP(link%20is%20external))

If you have more than one child in secondary school, you may take the survey more than once as your perspective may be different depending on your children's ages or if they are attending different schools.

If English is not your first language, we have attached a Chinese translated version to assist with understanding the questions and how to complete the survey. The survey will open on April 6th and we greatly appreciate your feedback.
